AGILE

ISW embraces leading edge 'agile' methodologies to deliver greater flexibility and responsiveness when developing custom software solutions for our customers.

LIFECYCLE

Our experienced team can also integrate traditional software development methodologies that enable an evolutionary process and when required by our customer environments.

DEVELOPMENT

Let ISW develop better software, while reducing cycle-time, risk and cost. We're experienced in the entire Rational portfolio of products. Expert consultation, installation and support for all Rational Jazz™ products as well as hosted Jazz offerings.

OUR SOFTWARE

Kudos Badges is an award-winning, flexible reward and recognition engine designed to transform and accelerate user adoption of IBM Connections.

Xpress Notes Applications is designed to effectively manage business information and processes: QM, CRM and Workflow Management.

DocumentONE for IBM Notes is a management tool that saves money, improve productivity and makes the most of your information assets.
