ISW Cloud
IBM Smartcloud
Softlayer
Consulting

ISW can host a range of platform and application solutions in our highly secure, redundant, purpose built data-centre 24 hours a day, 365 days a year.

ISW offers IBM focused hosting and cloud services. Leveraging our experience and expertise with IBM technology, ISW can offer a range of cloud and private hosting solutions. Our broad certification includes ISO 27001, ISO 9001 and ASIO T4 Standard.

APPLICATION HOSTING

Focused on IBM solutions we can host your IBM Connections, Domino/xPages, WebSphere Portal, Rational, Cognos, DB2, and other IBM solutions in private or public cloud infrastructure.

PRIVATE-PUBLIC-HYBRID

Providing a range of cloud offerings ISW can provide Private, Public, or Hybrid hosting options. Small, Medium, or Enterprise ISW can provide flexible options for your cloud based infrastructure.

SAAS

(Software as a Service) With over 100 Software as a Service offerings from IBM, ISW can reduce your infrastructure and capital requirements for IT and business operations, allowing the flexibility to focus on what you do best.

IAAS

(Infrastructure as a Service) ISW's Infrastructure as a Service offerings can host your organisations IBM applications, removing the burden of maintaining server and application infrastructure on premise.
