

ISW Hosting

Specialists in IBM® Software

Specialist IBM solutions hosting in a world class Australian based data centre since 1996.

With development and implementation experience spanning the complete IBM software portfolio, choosing ISW as your hosting partner will ensure confidence in the implementation, support, security and operation of your IBM based solution.

Technologies ISW Host

IBM Connections

ISW are the lead hosting provider for IBM Connections in Australia. We host for both Australian and international clients and are the only provider in Australia offering Per User/ Per Month hosting of Connections.

IBM Sametime®

From instant messaging and presence awareness to full blown web conferencing, fully integrated into your Notes or Outlook clients.

Lotus® Notes®/Domino®

Whether it be for a simple Domino website, or a Domino Utility Server for application hosting, all integrated with IBM Smartcloud, ISW has years of experience hosting Lotus Notes & Domino.

WebSphere® Portal & Web Content Manager

ISW are WebSphere Portal experts. We are able to host complex Portal and WCM environments as well as assist clients to design and implement user focused portal and web based applications.

DB2®

Need a database server for your application? ISW are able to build and host solutions leveraging IBM's leading database platform DB2.

ISW Hosting

EXPERTS IN IBM SOFTWARE

ISW is an IBM Premier Business Partner with certifications across the full IBM software portfolio. When you invest in hosting with ISW, you invest in a service that comes with over 16 years experience in installation and management of IBM software.

HOSTED EXCLUSIVELY ON IBM SERVERS

ISW have based our server farm on IBM's powerful line of servers. IBM servers provide industrial strength performance and reliability that directly reflects on ISW's hosted customers. ISW's investment in IBM infrastructure ensures the highest level of uptime and availability.

WORLD CLASS DATA CENTRE

Brand new in 2012, ISW's data centre is designed and constructed to N+1 standards. Features include:

- AC & DC UPS systems
- Diesel generator
- High security fencing
- External and internal monitored CCTV systems
- Monitored alarm system
- Security swipe access
- Carrier grade air-conditioning
- Environmental monitoring
- VESDA fire detection
- Service Level Agreement

DIRECT ACCESS TO SUPPORT

Friendly and responsive, you will speak with the people that can actually solve any problems you may have. This means faster, more reliable resolutions for you.

CONFIDENCE NEEDS BACKUP

IBM Tivoli® Storage Manager (TSM) provides an efficient, effective and highly reliably backup and disaster recovery solution for all ISW's hosting clients.

Regular backups maintain current and historical versions. In addition, off-site copies of data are maintained in case of a data centre disaster recovery situation.

Backup using TSM is covered by the monthly hosting costs.
